Description

The Bull Gas Fired Pizza oven offers the same great features of wood-fired ovens but with the added convenience of cooking with gas. Our gas fired pizza ovens can be fueled using propane or natural gas (with a conversion kit item# 77653) and because they are fueled using gas, these units don’t require the ash cleanup that is associated with their wood-fired counterparts. *NOTE: This will be discontinued in 2025 and will no longer be available. Please order while supplies last!
