Product Image

Description

Name: Aidens Adventure
Series: Nexus
Age Group: 5-12
# of Play Activities: 4
Child Capacity: 13
Use Zone: 28'-10" x 29'-3"
Max Fall Height: 7'-5"
Equipment or Structure Size: 16'-7" x 17'-2" x 9'-8"
Structure Weight 850

Description NEXUS style playgrounds offer unique solutions for organizations that have curvy and bendy spaces that traditional, squared-off playgrounds cannot accommodate efficiently. Also, organizations such as schools, municipalities, cities and park districts that are seeking to reduce risk but provide exceptional activity will want to research Nexus playgrounds.

EXUS playgrounds offer you features such as design flexibility and a compact footprint that you don't get with traditional post and platform styles of playground equipment. Safety and durability are standards in every playground, and Nexus augments those traits by removing platforms and keeping all of the activities at or very near to ground level. By removing the

platform requirements from a playground, you will enjoy high action play, inventive play at low levels of risk as well as lower equipment cost, shipping cost, and surfacing cost that one experiences with traditional post and platform style playgrounds.

NEXUS playgrounds are skillfully crafted with 4.0" OD galvanized steel posts which are, along with all of the steel handrails, barriers, gates, and climbers, coated with a baked-on polyester powder coat finish for a lifetime of protection against the elements. The three-dimensional plastic slides, panels, and climbers are rotationally molded using virgin compounded resins that feature greater UV breakdown resistance than dry blended resins.The HOPE sheet plastic climbers and activities are specifically manufactured at the factory for highquality control and not purchased from a supplier.
