Description

Cover Plates Pair for 2-3/8-Inch OD Pipe M-COVER PLATES

Cover Plates Pair for 2-3/8-Inch OD Pipe M-COVER PLATES, manufacturer model M-COVER PLATES, is a separately listed UltraSite mounting or service accessory. It is identified as cover plate pair; the exact 2026 catalog line specifies pairs of covers specifically for 2-3/8-inch outside-diameter pipe.

Exact model specifications

Manufacturer model	M-COVER PLATES
2026 listed configuration	COVER PLATES SOLD IN PAIRS - FITS 2-3/8" pipe only
Accessory function	Cover plate pair
Model-specific condition	Pairs of covers specifically for 2-3/8-inch outside-diameter pipe
Complete equipment included	No

Configuration and ordering comparison

This model	Pairs of covers specifically for 2-3/8-inch outside-diameter pipe
Alternative or compatibility note	Not suitable for unspecified pipe diameter
Installation	Check manufacturer mounting detail and actual site condition

The accessory is not a substitute for the principal bench, furnishing, post or structure to which it attaches. The choice of tube diameter, pair count, anchoring material and installation method can change compatibility, so compare the exact model designation with the equipment drawing before ordering. For installations in concrete or soil, determine the foundation and corrosion requirements from the engineering and manufacturer instructions, rather than applying a generic anchor detail. No compatible parent product is bundled with this line item, and the

available source does not establish universal fit across unrelated UltraSite collections. Confirm whether other mounting hardware is supplied with the parent SKU before ordering duplicates.
