## Product Image

## Description

### Replacement Rubber Foot Sold Individually M-RUBBER FEET

Replacement Rubber Foot Sold Individually M-RUBBER FEET, manufacturer model M-RUBBER FEET, is a separately listed UltraSite mounting or service accessory. It is identified as individual replacement rubber foot; the exact 2026 catalog line specifies sold individually, not in a pair or a set.

#### Exact model specifications

| | |
|---|---|
| Manufacturer model | M-RUBBER FEET |
| 2026 listed configuration | RUBBER FEET (EACH) |
| Accessory function | Individual replacement rubber foot |
| Model-specific condition | Sold individually, not in a pair or a set |
| Complete equipment included | No |

#### Configuration and ordering comparison

| | |
|---|---|
| This model | Sold individually, not in a pair or a set |
| Alternative or compatibility note | Confirm matching original foot and equipment |
| Installation | Check manufacturer mounting detail and actual site condition |

The accessory is not a substitute for the principal bench, furnishing, post or structure to which it attaches. The choice of tube diameter, pair count, anchoring material and installation method can change compatibility, so compare the exact model designation with the equipment drawing before ordering. For installations in concrete or soil, determine the foundation and corrosion requirements from the engineering and manufacturer instructions, rather than applying a generic anchor detail. No compatible parent product is bundled with this line item, and the available source does not establish universal fit across unrelated UltraSite collections. Confirm whether other mounting hardware is supplied with the parent SKU before ordering duplicates.
