## Product Image

## Description

### Strap Anchor Kit for 2-3/8-Inch OD Pipe M-SANC-238

Strap Anchor Kit for 2-3/8-Inch OD Pipe M-SANC-238, manufacturer model M-SANC-238, is a separately listed UltraSite mounting or service accessory. It is identified as strap anchor kit; the exact 2026 catalog line specifies for 2-3/8-inch outside-diameter pipe.

#### Exact model specifications

| | |
|---|---|
| Manufacturer model | M-SANC-238 |
| 2026 listed configuration | 2-3/8" diameter Strap Anchor Kit |
| Accessory function | Strap anchor kit |
| Model-specific condition | For 2-3/8-inch outside-diameter pipe |
| Complete equipment included | No |

#### Configuration and ordering comparison

| | |
|---|---|
| This model | For 2-3/8-inch outside-diameter pipe |
| Alternative or compatibility note | M-SANC-158 is the alternative diameter SKU |
| Installation | Check manufacturer mounting detail and actual site condition |

The accessory is not a substitute for the principal bench, furnishing, post or structure to which it attaches. The choice of tube diameter, pair count, anchoring material and installation method can change compatibility, so compare the exact model designation with the equipment drawing before ordering. For installations in concrete or soil, determine the foundation and corrosion requirements from the engineering and manufacturer instructions, rather than applying a generic anchor detail. No compatible parent product is bundled with this line item, and the available source does not establish universal fit across unrelated UltraSite collections. Confirm whether other mounting hardware is supplied with the parent SKU before ordering duplicates.
