## Description

---

Integrate the Reactor by Champion Barbell's Medicine Balls into weekly strength training workouts to tone and build muscle. Color coded with contrast-color weight information on the front, users can easily identify the weight of the medicine ball before use in a strength-training exercise. Whether athletes are looking to increase their passing strength, training for an endurance event or rehabbing an injury, the medicine ball withstands repeated use during lifting and tossing thanks to the synthetic leather cover.

- Synthetic leather cover withstands heavy use
- Weight is clearly indicated on the front of the medicine ball in both lb. and kg for simple identification
- Weighted design helps strengthen muscles during training exercises and workouts
- Variety of weights for accommodating different workouts and lifting abilities
- Note: not designed for use in slamming exercises
