Product Image

Description

Fitness fanatics and everyday gym goers can integrate upper-body exercises into their weekly workout routines with the Champion Barbell® Wall-Mounted Adjustable Pull-Up Bar. Attach this bar to the gym or fitness center wall to create a designated pull-up station for exercisers to build and develop arm, back, shoulder and core muscles. Different athletes and trainees can customize their workout to meet personal fitness goals with the adjustable bar that can be repositioned. When its time to close down the gym, the bar frame can easily be removed from the steel stringers and tucked away in a storage closet.

- Sturdy bar allows exercisers to perform pull-up and chin-up exercises
- Powdercoat steel construction supports safe exercising
- Adjustable bar design with a 30 in. range and 6 in. increments allows custom workout routines and exercises

-
- Stringers with mounting holes attach to the wall with hardware (sold separately) and hold the frame and bar securely in place
 - Frame and bar can be removed, making them easy to store
