Description

Athletes will be able to work out their whole body through cardio and strength-training exercises with help from this Champion Barbell Vinyl-Coated Kettlebell. Users can perform dead lifts, push presses, windmills and various other exercises with this kettlebell, which is made with a vinyl coating to protect weight room and gymnasium surfaces. Available in a wide array of weights, each kettlebell is designed using a different color, so athletes can easily identify the right kettlebell for them.

- Vinyl coating helps protect floors and reduces noise from accidental drops
- Great for total-body strength-building exercises
- Each kettlebell (one kettlebell included) features a different color for easy identification
- Available in a variety of weights to best suit your schools or recreational facilities needs
