Product Image

Description

Our new Y-Base eight foot ADA picnic table design allows for eight feet of seating on either side of an eight foot ADA table. The legs allow for full ADA clearance on either end of the table for wheelchairs, yet support seating for eight adults on either seat if there is no one seated at the ends. This design allows full usage of the table at all times.

Y-Base leg design allows full seating at table length while maintaining ADA compliance
11 Gauge perforated metal seats and top
Black powder coated galvanized steel 2 3/8" tubular legs
Thermoplastic finish
