Description

Keegan's Kastle features a challenging 4 foot Vine Climber and Beanstalk Climber, while also offering a Double Straight and Curved Slide. The Ship's Wheel Panel adds dramatic play opportunities while giving caregivers increased visibility to the structure.. This structure meets ADA guidelines and is commercially compliant with ASTM and CSPC. A ground spike surface mount is included with the structure, but an anchor bolt surface mount or in-ground mounting kit can be purchased separately. The posts are 13-gauge galvanized steel tube and powdercoated. The plastics are heavy-duty rotomolded and blow molded components. Critical fall height is 5'0" Perfect for easy-install, commercially compliant and budget-conscious solutions for daycares, churches and apartment complexes! Assembly required. Truck delivery.
